Additional information

Villa for sale

Villa Katmandu is located at Keila-Joa, only a few hundred meters from the sea. It is a complex consisting of 5 different buildings, which is located on a land area of 7423m2 (Villa tee1 and Villa tee 1a). The plot is multi-level, the buildings are located on the top of a small hill, the Türisalu stream flows through the highly landscaped and well-maintained property, and there is also its own small waterfall. The building complex consists of a residential house, a five-car garage, a horse stable, a winter garden and a shed. In the middle of the buildings there is a courtyard of about 500m2 covered with stone paving, where it is possible to organize a reception for more than 200 people. All the buildings have alarmsystem and the property is covered with CCTV (16 cameras). Power supply 3x40A.

Main building

The one-storey residential building is 239 m2. When you enter the main entrance, you will find a spacious hallway with mirrors and wardrobe, where you can comfortably leave your outer garments. You move forward to a spacious living room where is cozy to relax with your family and friends or negotiate with your business partners by a large fireplace. A spacious kitchen with a dining room provides a great opportunity to have lunch or dinner even for a larger group. Beautiful summer evenings can be spent on a terrace of about 50 m2, enjoying a wonderful views of the bubbling stream and the sunset. The house has a kitchen, utility room, dining room, living room, study, bedroom, dressing room, sauna with shower room, 3 toilets, hallway with mirrors and wardrobe, large fireplace. The heating system is water floor heating based on ground heating (also an oil heating system as a backup). The tiled roof building is constructed of highly heat-resistant Leca Term blocks produced in Finland (www.leca.fi), triple wood-aluminium windows and aluminiumprofile doors.

Garage building

The garage building is 174m2 and can accommodate 5 cars. 90m2 of the garage area is without heating, accommodates 3 cars. 60m2 of the garage area is heated and accommodates 2 cars. There's a boiler room in the building, size of 23m2. On the second floor, 3 bedrooms (total 86m2), one of which has a kitchenette. Separate shower and toilet in the hall. Radiators for geothermal heating on hot surfaces.

Stable building

The size of the stable building in the style of a manor stable is 85m2, it can accommodate 2 horses There's a horse washroom, saddle room, feed room. In addition, there is room for a carriage and a sleigh and a shelter for a horse trailer. On the top of the stable there is an attic/hayloft of about 50 m2 for storage of hay. Hay can be dropped into the horses' feeding room downstairs through a special opening. Heating with electric radiators. There is a small paddock on the property for walking horses. Everything necessary for keeping horses is available.

Winter Garden

There is a 18 m2 winter garden by the stream. There's a kitchen with kitchen appliances, a stone fireplace, an air heater. The separate outdoor kitchen is located next to the winter garden.

Shed

A stone shed of 11 m2 for storage of firewood.

The property is largely surrounded by a metal frame. The entrance to the property is through a magnificent forged gate, to the courtyard leads stone-paved road over a bridge (carrying capacity of about 40t). In 2022, a new sewage treatment plant was built in the area, new water and sewage pipes were installed.
